

	<b>Table #2 Hypertension Status by Binge Drinking Prevalence and the Estimated Multivariate Logistic Regression Models for Hypertension, California, 2007</b>		
	<b>Characteristics</b>	<b>Unweighted sample size</b>	<b>Have hypertension % (95% CI)</b>
	All adults	51048	
	Binge drinking in past year	11879	(68.5953-70.9985)
	<b>Multivariate logistic regression model*</b>		<b>AOR (95% CI)</b>
	Binge Drinking Status		
	Binge drinking in past year		0.841 (0.700-1.010)
	No binge drinking in past year (ref.)
