

	<b>Table 3. Hypertension Status by Frequency Binge Drinking of Individuals that Had Binge Drinking in Past Year and the Estimated Multivariate Logistic Regression Models for Hypertension, California, 2007</b>		
	<b>Characteristics</b>	<b>Unweighted sample size</b>	<b>Have hypertension % (95% CI)</b>
	All adults had binge drinking in past year	2055	
	Once a year	305	(6.9680-10.0347)
	Less than monthly, more than once a year	985	(23.5386-29.1914)
	Monthly	256	(4.9156-7.3072)
	Less than daily or weekly, more than monthly	271	(5.7922-9.0477)
	Daily or weekly	238	(4.8634-7.6482)
	<b>Multivariate logistic regression model*</b>		<b>AOR (95% CI)</b>
	Frequency of binge drinking		
	Once a year (ref.)		-
	Less than monthly, more than once a year		0.972 (0.684-1.382)
	Monthly		0.978 (0.610-1.568)
	Less than daily or weekly, more than monthly		0.932 (0.628-1.382)
	Daily or weekly		0.600 (0.328-1.095)
